

I wish to stongly support the American Radio Relay Leaque (ARRL) Petition #RM-10867 for changes in the Amateur Radio License requirements. They follow the international Morse Code trends without eliminating the use of Morse Code in Amateur work.If such a change is allowed, ARRL is well situated to implement it nation wide. Also ARRL has had broad national imput in developing their petition. Thank you, R.A. Marble, KC7GTK
